

GREENTALES

NURTURING MINDS AND NATURE

About Us:

GreenTales is a venture run by budding young entrepreneurs of ages 10-15 aiming to nurture the minds and the planet. We sell books and garden compost that nurtures minds and plants. A portion of our profit goes to charitable causes.

What we do:

At GreenTales we help you to sell the books you have read to others who need, at a reasonable price. If you have books that you have read and wish to sell, Send us an email at greentales@googlegroups.com with the book - title and it's physical condition. Along with the book we deliver a bag of gardening compost to nurture plants.
